PRODUCT OVERVIEW

The CALIFORNIA AIR TOOLS 5020W Ultra Quiet & Oil-Free Rugged 5-Gallon Air Compressor is designed to be one of the quietest 2.0 Hp air compressors in the industry having only 70 decibels of sound and features extra large 7.6″ wheels.

FEATURES

- The Powerful 2.0 HP (SP-9421) motor operates at only 1680 RPM creating less noise and less wear. Motor has been designed to increase duty cycle and allow for longer continuous run times.
- The Oil-Free Dual Piston Pump System is engineered for high performance, durability and provides up to 135 PSI.

BENEFITS

The CAT-5020W Air Compressor has a Oil-Free Dual Piston pump designed to have a life cycle before wear of 3000 Plus hours compared to other comparable air compressors with life cycles of 500 hours or less.

The Oil-Free pump allows for use in a variety of temperatures (cold starts) and uneven terrains (no oil in the pump).

The Easy Start Valve feature allows for a easier start up using less starting amps. The Easy Start Valve releases a small amount of air from the pump at start up to produce a no-load condition allowing the motor to spin freely. This no-load start up requires less amps for a easier start up in cold temperatures.
